RE: Request for Waiver of 10-Day Notification
Emergency Asbestos Abatement
City of Camden DPW Building
101 Newton Avenue, Camden, NJ 08101

Dear Sir:

The City of Camden, Department of Public Works needs to repair a leaking pipe in the basement of the above referenced building. Asbestos-containing pipe insulation needs to be abated to repair the pipe leak and prevent the insulation and the pipe from becoming damaged. The City of Camden is requesting a waiver of the 10 day notification requirement so the leak can be repaired immediately. Abatement of the asbestos containing pipe insulation is scheduled to commence on September 13, 2016, after 5 pm and will be completed the same night. Work will be performed utilizing limited containment abatement.

Location	Material	Amount of Material
Basement	Asbestos-containing pipe insulation	Approximately 9 linear feet

To prevent possible health and safety issues and in order to repair the pipe leak and avoid further damage, the abatement of the asbestos containing material is urgently required.

Thank you for your assistance in this matter and do not hesitate to call me at 609-314-1683 if you have any questions.

Sincerely,

TTI Environmental, Inc.

James A. Guilardi

Senior Project Manager
